1. One way to search for articles written by nurses and peer-reviewed articles is to search the library’s catalog WorldCat. Go to https://wvutech.on.worldcat.org/discovery

2. You may search by journal title or do a keyword search of a topic. WVU Tech has access to more than 24 Nursing, Medical, or Health related databases. Many provide access to eJournals as well as full-text articles in databases.

The following example is a journal title search in WorldCat. Use the refinement features on the left. You’ll want to limit the search to WVU Tech, Full-text, Peer Reviewed, and Journal, Magazines.
3. Open to learn of the journal’s availability and coverage.

3. For this example, *Journals@Ovid 1900-10-present, volume 1, issue 1* was selected.

Helpful Hint: Look for the author’s credentials found after their name.
Database Search

For a list of Nursing databases go to the Library’s **Nursing Resources Research Guide** [http://libguides.wvutech.edu/](http://libguides.wvutech.edu/)

Or browse for electronic resources from the library’s website [https://lib.wvu.edu/beckley](https://lib.wvu.edu/beckley)

1. To browse databases with descriptions click on the Databases tab and then select the Databases below the search box.

For this example CINHAL with Full Text was selected.

**CINHAL with Full Text**

CINHAL with Full Text is a bibliographic database for nursing and allied health literature, with more than 600,000 full-text articles dating back to 1982.

2. Perform a basic or advanced search. Below, is an advanced search example. Choose **AF Author Affiliation** to search for the credentials of the author. Credentials include RN, BSN, and MSN.

3. Use the limiters full-text, peer reviewed, and or Academic Journals on the left. Open hyperlinked title or click PDF to view article.

See search results on next page.
1. Parents found it difficult to obtain objective information and advice about the combined mumps, measles, and rubella vaccine.

Subjects: Immunization in Infancy and Childhood; Measles-Mumps-Rubella Vaccine Adverse Effects; Measles-Mumps-Rubella Use; Parental Attitudes; Adult: 19-44 years; Chld: 6-12 years; Chld, Preschool: 2-5 years; Infant: 1-23 months; Middle Aged: 45
